Experience

Global Digital - Analytics Manager

Specialized Bicycle Components — March 2026 - Present

- Guiding the analytics practice for Global Digital and Specialized more broadly.

Global Digital - Senior Data Analyst

Specialized Bicycle Components — October 2022 - March 2026

- Architected ecommerce tracking across 30+ countries and built product datasets from 10+ sources for end-to-end supply chain visibility.
- Found marketing subscribers had +47% higher LTV, shifting business focus toward subscription growth.
- Cut manual reporting 50% by building self-serve reports and documentation.
- Uncovered \$2M in annual revenue leakage; findings presented to the CDO led to reversal.
- Connected online behavior to retail purchases, giving leadership their first omnichannel view.

Global Ecommerce - Web Analyst

Specialized Bicycle Components — August 2021 - October 2022

- Partnered with data engineers to build data models for new datasets.
- Ran market research that informed a new product's launch strategy.
- Automated manual processes, cutting \$100k in annual OPEX.

Digital Analyst

Tinuiti — September 2020 - July 2021

- Principal analyst for clients ranging from \$100M to \$10B in annual revenue.
- Built measurement plans and reusable analyses for the broader analytics team.
- Guided marketing experiments to measure true incrementality of spend.

Associate Digital Analyst

Tinuiti — March 2019 - September 2020

- Based in Philadelphia, PA.
